**Reasons for wanting to be a TAAG delegate (3 most important):**

- TAAG should be an effective voice for expressing our community's recommendations and concerns about new projects.
- Templeton residents want our community to retain its unique character and I wish to continue working towards that objective. New projects should enhance our character, not detract from it.
- Many Templeton residents find County government and website confusing. When asked, I readily respond with assistance. I believe in continuing education such as Annual Training because county laws and policies are always changing.

**Committees on which you would be willing to serve:**

Architectural Review Committee, Traffic Circulation, and future long-range planning committees
